Fall and Spring classes are from 7-9:30 p.m.

Summer classes begin at 6:30 p.m.

This sequence is tentative and subject to change

The sequence above includes 6 MBA elective credits required for the General MBA. If you plan to pursue a concentration, you need to complete a total of 9 elective credits (a total of 18 elective credits are required for a double concentration). You may be able to complete your elective courses required for your concentration(s) while you are completing your required courses, or you may choose to complete the elective courses after you have completed the core courses, however, the latter would extend the timeline for program completion. Please call 973-655-4306 to speak with an MBA Advisor if you have any questions.
